Image Conversion Process

1) Meet with potential customer to check possibilities of upgrade or conversion.
   * Identify whether site has the capability of meeting all minimum image standards.
2) Obtain Site Image Approval
   * Validate site meets all brand/image standards
   * Request image exception(s), if necessary from Pacific Pride
   * Obtain exception/site imaging approvals from Pacific Pride
3) Survey Site
   * Enter survey information on Pacific Pride Survey Form, (Send form to OCI for material specification)
4) Order materials WWW.pacificprideimaging.com
5) Install Pacific Pride Image Items
6) Obtain Final Site Approval
   * Complete Pacific Pride Image Completion Form
   * Completion Photos must be attached to Completion Form
   * Pacific Pride Site Inspection Report Sent to Pacific Pride w/Photos
Pacific Pride Site Minimum Standards

1) **Paved or Well-Maintained Drive**
   * Concrete or Asphalt Recommended
   * If gravel only, appearance must be kept to a very high standard (no potholes)

2) **Canopy(s) over fueling islands -not required but recommended**
   * Fascia must be flat and a minimum of 36” in height
   * No other lettering, signs or logos are permitted on the canopy fascia other than the clearance designations, “Pacific Pride” Logo/Credit Card decals, or authorized “Pacific Pride” illuminated signage.
   * Flat fascia solid white in color

3) **Main ID Signage**
   * Sign must be approved by “Pacific Pride”
   * New Single Pole Sign with 4’ x 10 Cabinet Required
   * New Monument Sign (Use only when permitting does not allow double or single pole, exception required)

    *Properly prepared for painting, and covered with “Pacific Pride” charcoal paint.*

12. **Light Pole(s)** *(Recommended Image Item)*
    *Properly prepared for painting, and covered with “Pacific Pride” white paint.*

---

All Pacific Pride Network Sites must meet all Local, State, and Federal regulations at all times.
1) Canopies with fascia that is not straight may require bottom trim to allow a “Skinover” installation of new fascia.

2) “Pacific Pride” canopy logo should be left-justified, (exceptions possible).

3) No lettering, signs, or logos permitted on the canopy fascia, other than “Clearance” designations, “Pacific Pride” Logo, Card decals, or authorized “Pacific Pride” illuminated signage (must be approved by Pacific Pride)

4) “Pacific Pride” Logo Graphic Placement Guidelines:

- Canopy length less than 40’: Locate 24” from corner
- Canopy length 40’ to 70’: Locate 48” from corner
- Canopy length 70’ and greater: Locate 72” from corner
- Radius Corner Canopy: Locate dimension begins at flat area of corner
1) **Fascia Standard Sizes**
   36” Fascia with 36” “Color” stripe

2) Canopies that are retrofitted with fascia exceeding 36” in height will have the “Color” stripe revealed from the top to bottom evenly.

3) Canopies, that are being retrofitted and have existing radius corners, may retain the radius corners or be adapted to square corners.
   - Square Corner Kit available (not required) Part # PPCSCK

4) “Pacific Pride” logo decal
   - All Canopy fascia will receive a minimum of one 15” tall “Pacific Pride” Logo placement information on page 6

5) **Clearance Decal**
   - Centered left to right on Canopy Fascia or locate in most visible area above customer traffic
   - Decal must be centered up/down in the middle of the bottom fascia color stripe
Main ID Signage
